

Section 1 – Chemical Product and Company Identification

MSDS Name: Di-tert-butylneopentylphosphine, DTBNpp

Chemical Family: Organophosphine

Molecular Formula: C₁₃H₂₉P

Use of the substance: For research and development use only.

Company: Optima Chemicals Group, LLC
200 Willacoochee Hwy.
Douglas, Georgia 31535
Telephone (912) 384-5101 FAX (912) 384-6330
Emergencies: Telephone (912) 384-5101

Section 2 – Hazards Identification

Hazards:

Pyrophoric liquid. Can catch fire if exposed to air. Air sensitive.

Handle under nitrogen or inert gas.

Corrosive - Causes severe skin burns, eye damage, and is extremely destructive to tissue of the mucous membranes and upper respiratory tract.

NFPA Rating: Health: 3 Flammability: 4 Reactivity: 3 Special: None

In case of fire do not use water or carbon dioxide. Use dry chemical.

Section 3 – Composition, Information on Ingredients

<u>CAS #</u>	<u>Chemical Name</u>	<u>Wt.%</u>
NOT AVAILABLE	Di-tert-butylneopentylphosphine	95-100

Section 4 – First Aid Measures

Eyes: Flush eyes with plenty of water for at least 15 minutes, lifting upper and lower lids. Seek medical attention.

Skin: Quickly wipe off as much as possible, then immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing. Thoroughly wash with soap and water, and seek medical attention.

Ingestion: Quickly wipe material from the mouth, and rinse mouth out with plenty of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention.

Inhalation: Remove from exposure, to fresh air immediately. If not breathing give artificial respiration, and seek medical attention.

Notes to Medical Doctor: This product is corrosive to eyes, skin, respiratory and gastrointestinal tracts. Consideration should be given to careful endoscopy as stomach or esophageal burns, perforations or strictures may occur. Careful gastric lavage with an endotracheal tube in place should be considered. Treatment is otherwise symptomatic and supportive.

Section 5 – Fire Fighting Measures

Flammable Limits: Upper: Not available Lower: Not available

General Hazard: Pyrophoric liquid. Air and oxygen sensitive.

Fire Extinguishing Agents Recommended: Do not use water or CO₂, use a dry chemical powder.

Hazardous Combustion Products: Carbon dioxide, carbon monoxide, phosphorus oxides.

Special Fire fighting Procedures: Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

Autoignition temperature: Not applicable.

Properties contributing to flammability: Air reactivity of product.

Flashpoint: No data available

Sensitivity to Static Discharge: No

Sensitivity to Impact: None

Section 6 – Accidental Release Measures

Remove all sources of ignition. Spilled material can catch fire spontaneously on contact with air, moisture, acids or oxidizing materials. Cover spill with dry extinguishant. Contain spill with absorbent. Transfer to approved transport container and clean up spillage with an absorbent. Dispose of waste according to local and Federal laws and regulations. Before cleanup measures begin, review the entire MSDS with particular attention to Section 3, and Section 8.

Section 7 - Handling and Storage

Handling: Keep away from water, air, and oxidizing materials. Do not get in eyes, on skin or clothing. Do not breathe vapors or mist. Use in a closed system under argon or nitrogen.

Storage: Store in cool, dry place. Store in tightly closed container. Keep away from sources of ignition, water, air, and oxidizing materials.

Section 8 – Exposure Controls, Personal Protection

Exposure Limits: PEL (OSHA) –None, TWA (ACGIH) – None, STEL/Ceiling (OSHA) – None.

Engineering Controls: Use in closed system under argon or nitrogen. If personal contact can occur, use local exhaust ventilation (explosion proof), to keep airborne concentrations low.

Eyes and Face: Wear splash goggles with a face shield.

Skin: Chemical resistant gloves clothing.

Respiratory: When engineering controls are not adequate, wear a NIOSH/MSHA respirator approved for protection against organic vapors and mists.

Work Hygienic Practices: Quick-drench eyewash and safety shower.

Section 9 – Physical and Chemical Properties

Appearance and Odor: Colorless to yellow liquid

Melting Point: Not available

Boiling Point: Not available

Flash Point: Not available

Vapor Pressure: Not available

Vapor Density: Not available

pH: Not available

Specific Gravity: 0.79 g/cm ³	Percent Volatile: 0
Water Solubility: Insoluble	Evaporation Rate: Not available
Flammable Limits: Not available	Molecular Weight: 216.40
Autoignition Temperature: Not applicable	Viscosity: Not available
Decomposition Temperature: Not available	Explosive Properties: Not explosive
Oxidizing Properties: Not an oxidizer	

Section 10 – Stability and Reactivity

Stability: Stable at room temperature if stored properly.

Incompatibility: Heat, fire, air, and oxidizing chemicals. Reacts violently with halogenated hydrocarbons.

Hazardous Polymerization: Does not polymerize

Hazardous Decomposition Products: Carbon monoxide, carbon dioxide. Thermal decomposition may produce toxic fumes of phosphorus oxides and/or carbon oxides..

Conditions to Avoid: Heat, flames, sparks and exposure to air.

Section 11 – Toxicological Information

Eyes: No data available.

Skin: No data available.

Ingestion: No data available.

Inhalation: No data available.

Acute Effects from Overexposure: This product is corrosive to the eyes (may cause blindness), skin, respiratory and gastrointestinal tracts. Inhalation of vapors may cause dizziness, nausea, anesthesia, numbness, burning sensation and motor weakness in fingers and toes, incoordination, and headache.

Chronic Effects from Overexposure: No data available.

Sensitization: No data available.

Carcinogenicity: Not listed by NTP, OSHA, EH40, IARC, or ACGIH.

Mutagenicity: No data available.

Reproductive Toxicity: No data available.

Section 12 – Ecological Information

Ecotoxicological Information: No data available.

Chemical Fate Information: No data available. The product reacts with air to form phosphine oxides.

Section 13 – Disposal Considerations

Dispose of in accordance with federal, state, and local regulations.

Section 14 – Transport Information

DOT Shipping: Pyrophoric liquids, organic, N.O.S. (Di-tert-butylneopentylphosphine), 4.2, Spontaneously Combustible, UN2845, PG I

Labels: Spontaneously Combustible

Marine Pollutant: No

Custom Tariff Number: 2931.00.9060

PIH: Not designated Poison Inhalation Hazard by USDOT.

Section 15 – Regulatory Information

United States:

Section 311 Hazard Category (40CFR 370): Reactive, fire hazard, acute health hazard.

Section 313 Reportable Ingredients (40 CFR 372): No reporting requirements.

Section 302 Extremely Hazardous Substances (40 CFR 355): Not listed.

CERCLA Hazardous Substance, RQ, (40 CFR 302.4): Not listed.

TSCA Sec 12B Export Notification: Not subject to these requirements.

TSCA Inventory Status (40 CFR 710): Not listed. For research and development purposes only.

Canada:

WHMIS: Hazard Classification – UN 2845, Class B, Division 6 (Reactive Flammable Materials), Class E, (Corrosive), Ingredient Disclosure List: Not listed.

Section 16 – Additional Information

Creation Date: 06/18/10

This MSDS has been prepared to meet U.S. OSHA Hazard Communication Standard, 29 CFR 1910.1200 and Canada's Workplace Hazardous Materials Information System (WHMIS) requirements.
