

## **PRODUCT SPECIFICATIONS**

|                       |   |
|-----------------------|---|
| Product Number:       | D1020                                     |
| Product Name:         | 2, 6-Difluoro-3-methoxyphenylboronic acid |
| Formula:              | $C_7H_7BF_2O_3$                           |
| Molecular Weight:     | 188.05                                    |
| C.A.S.:               |   |
| Specifications:       |   |
| Assay (by Titration): | 97 – 103 %                                |
| FTIR:                 | To Match Standard                         |
| Physical Properties:  |   |
| Appearance:           | Off White Powder                          |
